6759 NW Loop 410
San Antonio, Texas 78238

To Whom It May Concern:

Back in 2007 I began using ceiling pro to clean and sanitize our ceilings. The service and quality were outstanding. They took time to explain and answer any questions that I had. When the work was complete they came by to insure the job was done correctly. I was very pleased and happy with how professional their crew and I have used them in all four of the restaurants in San Antonio over the last 4 years. I would recommend others to try out their services as well, you will be very happy with the results.

Thank you,
