

To Whom It May Concern,

This letter is in reference to Ceiling Pro of San Antonio. Recently Ceiling Pro serviced the cleaning and repairing of our kitchen tiles and grids. Their work was thorough, and I was very pleased with the work that was completed.

As you may know, the grease and smoke in a restaurant will drastically affect the appearance of white ceiling tiles. Ceiling Pro of San Antonio has kept our ceilings clean and looking new, greatly improving the cleanliness of our kitchen. This is very important for visitors such as vendors health inspectors, and our corporate upper management and gives our staff and managers a sanitary environment to prepare food for our guests.

The staff at Ceiling Pro has allowed this company to stand out in addition to their job performance. Mike and Marco Delgado and their crew are very professional and courteous. They are also very accommodating to our requests. They demonstrate concern for each of their clients with the encouragement for feedback. I would most definitely recommend Ceiling Pro of San Antonio to any restaurant that would like to see awesome results in their kitchen.

Sincerely,

A handwritten signature in black ink, appearing to read "Shane Smith", written in a fluid, cursive style.

Shane Smith
